

# ISLEFACT 'STATE OF THE ISLANDS' REVIEW PROGRAMME

## MONTHLY REVIEWS

Drawing upon decades of island economic and social research experience, a comprehensive range of key economic, social, and environmental topic areas relevant to islands has been identified including primary external and internal trends impacting island communities both positively and negatively.

To this end, exclusive 'State of the Islands' Reviews will be available from the beginning of June. These are designed to provide both expert insights for island strategic and operational decision-making and clear, evidence-based guidance for policymakers and business leaders.

## REVIEW FORMAT & TOPICS COVERED

Each 30/40 page Review will feature a specific topic chosen for its relevance directly and indirectly to island-based organisations. Island best practice is also highlighted and, over a twelve months' rolling cycle, a broad sample of islands including the three Crown Dependencies will be referenced.

There is a high degree of synergy between the Reviews and key subjects will be drawn from the following areas:

Economic Sector Performance	Climate Change Mitigation
Government Finance	Education and Skills
Health & Long-term Care	Digital Development
Transport Connectivity	Security and Law & Order
On-island Infrastructure	Social Care
External Collaboration	Culture & Leisure
Labour & Employment	Population & Demography

Throughout the ongoing Programme, attention will also be given to the persistent challenges posed by critical mass and economies of scale, recognising these as constant factors influencing island development policy.
